NINGBO BRITISH INTERNATIONAL SCHOOL: UNITING FOR PROGRESS

In a recent gathering led by Zhejiang Wanli Education Group (WEG), Ningbo British International School experienced a profound demonstration of collective purpose. Mr Ying Xiong, Chairman of WEG, and Ms Julie Lv, Vice President, emphasised unity and collaboration for the school's advancement. Mr Lin Liangfu, President of WEG also attended this meeting.

Mr Ying Xiong, Chairman of WEG

Teachers, administrators, and support staff converged, recognising the importance of transparent dialogue and shared goals. Ms Julie Lv articulated the need for a culture of openness and collaboration within the school community.

"By working together, we can achieve remarkable progress," Ms Julie Lv declared, resonating deeply. "Each of us has a vital role in shaping our school's future."

Ms Julie Lv, Vice President of WEG

Following Ms Julie Lv's address, Ms Nancy Eldars, the International Principal, echoed the sentiments, emphasising collective effort in pursuing the school's vision through collaboration-guided discussions and shaping initiatives for student success.

Ms Nancy Eldars shared the CIS Accreditation route map and drivers for the School Development Plan. The evaluation of NBIS against global educational standards and the pursuit of continuous improvement in our services to the community through CIS Accreditation are key priorities. The senior leadership team is dedicated to delivering exceptional service, aiming for continuous growth and efficiency. NBIS is a community of learners that prepares students to become future global citizens, leading fulfilling and compassionate lives.

As the meeting drew close, Mr Robert Yan, the Chinese Principal, delivered a stirring conclusion. With eloquence and passion, he encapsulated the spirit of unity that permeated the gathering.

Nursery A

Ms Mia

Who are the people in our neighborhood?
Exploring the jobs that helpers have in the community is
fun learning for curious Nursery A children! This week, we
explored all the various helpers in our own neighborhoods
with a **COMMUNITY HELPERS** THEME.

*Our "bubbly fires" science experiment encouraged the
children to use critical thinking skills while playing to learn.*

Firemen counting game was great for working on counting skills and math skills at the same time.

Band-aids- weren't they just amazing?! Vets and nurses used bandages to cover and protect many 'ouchies' that the animals had.

YEAR 1A

LITERACY - TRADITIONAL TALES

Mrs McAleer

This week, Year 1A started to learn some traditional tales. Their first tale was 'The Three Little Pigs'. To begin with, they learned the song and shared the story. Then, the children talked about the characters, the settings and what happens in the story. Throughout, they were encouraged to use adjectives when describing the characters. In addition, they talked about story sequencing and really enjoyed a role play activity. I have to say that in 1A there are some great actors and actresses.

Y10 EAL - JOB ADVERTS

Mr Paul Du

Year 10 EAL students were assigned the task of making a job advert of their choice. Crafting a job advert requires students to use descriptive language, persuasive vocabulary, and precise grammar. They learn to convey information more effectively. By engaging with this task, students also gain exposure to authentic language used in professional settings. They learn how to structure sentences, highlight qualifications, and emphasize key points. Furthermore, designing a poster involves visual elements such as layout, font choice, and colour. Students explore visual literacy, understanding how to communicate messages through images and text. This skill extends beyond language learning and is valuable in various contexts.

BRAND AMBASSADOR

travel & tourism trip

Ms Alicia Froome

The Year 10,11, 12 and 13 Travel & Tourism students visit Red Square to learn about how to open a business in China. The students asked the owner questions about their studies, such as

How do you make a business more sustainable?

What were the challenges you faced opening a business?

What are some of the legalities when opening a business?

Have you ever encountered difficult customers?

What are some of the hidden costs when opening a business?

The students learned valuable information about business ownership and were able to ask questions to an industry professional.
